

THE ADVENTURES OF JOY JACKSON
AND THE THREE TASKS SET BY QUEEN MAB

by a, w, lathan

It was the rain on the bedroom windows that woke up the girl just before her alarm-clock went off on a cold wet monday morning, so with a big sigh she pulled her body out of the warm bed, right first things first the loo, the teeth and comb out her short hair and put on the red-hair-tie, open the airing-cupboard to pull out the school-uniform at she had to wear then she was at her school at was called ST,dianas, back in the bedroom she got into the warm uniform she put on the blazer at was hung on the back of the bedroom door, run down to the morning room at her mother like to call it, to see at her breakfast had been set-out as her mother had all-ready gone to work.

As she eat she thought as to is mornings hockey-game, as she will ask her good friend angelina jones to help her to pick-out the best girls for the game against the girls high-school next week, but as she glanced out the window, at going to be a wet ride to the school is morning, as she got ready to go to school she put on a rain-mack and hat, got out her bike and of she pedal – of- into the cold rain down the road for the ten-minute ride down the hill to get to school, as she got to the roundabout the rain began to hammer down, and as she tried her bikes – brakes to stop they did not work at all, as she put down her legs to try to help her wet school shoes did not help at all, as she shot past some cars at missed her by mare feet, and as the bike hit the roundabout side she let out a big shriek as she was thrown right-over the handlebars, as her hat fly off her head as she flown head-over-heels, and landed not into wet ground, but warm long green lush grass, and into warm sunshine.

WOW,,, was all she said as she lay on her back to look up at blue-sky and turn her head to one side to at the grass was so green to look at, as she sat up to find out just what happened to the bike and the hat, only as she stood up neither was to be seen, at it was then at somebody said, are you alright mortal.

What,,, as the girl turn to see a small brown - green women-girl as she could not tell as she was all in green and brown tunic and green tall hair, at was stood up to her middle in the tall grass, who was looking at the girl oddly, as behind is creature was a vary big tall trees at stretched as far as she could see to the left or the right of her, as will as behind her as she found at she was stood in a nice long green valley,

Where am I to please, as joy pulled off her wet-rain-mack as it was now too hot to have it on, as the sun-light was nice and warm, as she look-up at the sun, as she had seen it some time ago then she and angelina jones had been pulled into the land of the fay only last week by at sea-troll at she had called it, which was not nice at all, as she had to swim in her school-uniform to do a task set by queen mab, who was in a green boat at the time then who had said I will remember you then she put her long finger under her chin, as joy did have misgivings as to what she had meant by at.

You are in the land of the fay mortal, as is green women-girl walk - up-to joy, come I will see you to the queen mab, as she held out her green hand, do not be-afraid mortal as will not harm you is day.

Please what are you, as she held onto the hand, as joy had a look about for her bike as it was nowhere to be seen, only her school bag was on the floor, which she pick-up, and said lead-on then a they say in the scottish play, as she then began to fallow is green girl into the long-grass.

As to what I am mortal, I am a wood-nymphs as I live with my sisters in and about the woods at you see as we are the guardians of is green land, so if you have any questions please do ask me.

Yes I have, where are you taking me to, and how far is it, as I have not got the right shoes on to do mush walking, as is grass is long and hard to walk in and some what-wet as joy held up her knee-length plaid-pleated-school-skirt, but could do nothing about her black school tights, as by now both her shoes were now wet.

Not far as I will see you to the river at is at the far end of is wooded valley, as you can get a small-vessel at will get you to the queen, but be careful when on the river as it can be some what swift in places.

So it was some time later at joy could hear the sound of running water, as the grass gave-way onto a stony river-side, to see one big flowing river at had some big rocks in it, and she could just see the far wooded river-bank.

You what me to go onto at, as joy look in horror at is river, as she could swim, but not in at as had a good look to see how deep it was, as she then suddenly remembered how cold at water can be, when she and angelina had to swim in the cold sea to find at lost land for queen-mab, as she was not sore at if she could survive under water as she and angelina had not try-it out in the school-pool as yet as it was full of disinfectant at would be so horrible to swallow, as she said at we would have to try-it out to sea, with her unique-ability to breathe under-water.

Do come is way mortal as there is some vessels at you can use, over-here.

As in the river-bank, pulled up in the long-grass was two small-one-man-vessels at was all in green-wood, but with no paddles to be seen at all, as joy look at them, you what me to go in at, is it safe to go into at fast water, as she look at is swift river with a look of distress on her face.

Yes they are mortal, but I must say at I have not try to, as I can not go, as I can not go off is ground, as I would die, as I am bound to the land.

You would die, ho my, ho well, so good day, and thank you for your help, as she look down at is green-boat as she regard it,s seaworthy,s to tip-over, can you,,, ho as she look back at the green-girl to see at she had gone with a sway of crass, ,,,mmm,,, right here I go, as she put her school bag and the ring-mack in as she had to push one boat down into is water only to get her shoes wet as she had to kneel down as there was no were to sat-down, as she used her hands to paddle-of down-river.

Where she had to try to keep is boat up-right as she tried to keep-out- the-way of some big rocks at was all-a-bout she side of is river, so all she could do was to push it out into the middle of is river, which was some what better, only now it was faster, but as she now was rocked-to- and- throw in the flow as it was hard to keep up right, till she looked up to see a big swan at was the size of the river at was now heading right for her, what is at, as she look in some amazement at it, as she tried move to one side, she was then surprise to see at it it was not a swan but a big boat of some kind, as hands look-over the side at her, as one of them call out to her hold onto is rope mortal, as long-rope was thrown to her as she go to the side, which she held-onto as she was swung to one side and swayed right into the side of the boat.

OOHHH,,, was all she utter, as she hit the side as well as she lost her footing on the green-vessel as she was pulled up, but she manage to see at she had lost her school -bag and the rain mack as at green-vessel was now on its way down-river, then she was pulled into its boat, where she had to hook her right leg over the side and pulled up-right to see at she was then in-medias-res a lot of fay who where all in strange green clothes with long fishing rods, who where all looking at her with some amusement, as she was to say think you. As One of the fay at the back of its swan-boat cast her rod at the green-vessel, you mortal one said to her, please to sit, as we will convey you to the queen who will set you on your task, when we get to the blue-lake, as at small green-vessel is now in tow.

I thank you, but who are you and where am I to now please.

You are on the good boat swan ii, and is to who we are we are on a fishing trip to the blue lake is day mortal for the cauldron of ceridwen into days time to be so full of fish at it will last a week, and you are most welcome to try to get some fish, as is fay handed her rod and line.

AH,, I think you but i think at I am not ment to be here, as I have only seen queen-mab only the once, and at was only last-week ago, so why do I have to go to see the queen-mab for then.

At I do not now mortal, but it must be so important at she have sent for you, but come and sit at the back onto the fish boxes, as we fish the river,

So she sat and began worry as to what at she had to do, but it was no-use to bother about it, she will have to cope with whatever happens to her, but then she was excited to be back in the land of the fay, and to tell angelina all-about it, as she will be so jealous, as she hoped at she will not get to wet, as the only thing is I do now no what the queen has in store for me, so she sat down for some time till she began to get cold, and jump-up she pull-down her blazer put her hands into the pockets to warm them up, and had a look the side, as most of the fay moved away in some hurry away as she stood by the side, what is the matter she ask one of them.

At small red thing on your red jacket, as it is not of this world, as it is made out of things on your home world, and not of the fay.

Small red thing, ,,HO,,, you mean is, as she looked down at the school -hockey-captains-badge at was on the side of her blazers left lapel at was in red -metal-enamel, why what are you so fearful of it.

It can be so harmful to us fay is we come in contact with metal of your world, so do keep away please

HO,, so sorry, as she then recalled at the fay can be harmed by metal, which is as she at read at all the church,s in the country-side were full of bells to keep the fay fay bay.

So it was at as she was looking about at she saw at its swan-boat was about to emerge into a vast blue sea at looked so deep, as all the fay on the boat got into a frenzy with all the fish-rods as they all began to start to fish over the side, so with at she did the same thing with the rod at she had been told to use, as she looked for some fish-bait or some worms, but then she saw at there was no hook at all on the end of the rod.

Most odd,,, how can you fish with-out worms, ho-well, here go,s as she cast the rod over the side to see what would happen, and with a splash she saw the fishing – line sunk down as she then saw at all the fay were now pulling in big fish all-over the boat, as it was then at she felt big tug on the rod , and before she said I have got one she was pulled over the side into a header „,SPLASH,,, into cold seawater.

HO NOT,,, again was the first words she thought as sunk down , as she let-go of the rod, as it was then at she saw the biggest fish at she at ever see in her life ,,,, WOW,,, she mouthed, as it was then at seawater flowed into to her mouth, as she tried to put her wet hands over her mouth to try to stop the water into her lungs in her panic, as she kick her legs to-and-fro, as she sunk down as she had by now had let- go of the fishing rod, only to find as she opened up her mouth, as you do then you drowning as she had forget the day then she and angelina jones had to swim under-water to help at queen mab lost land only to find to her great awareness at she was not at all drowning as lots of blue bobbles flowed out of her mouth.

HO,,, great,,, hay is water is so warm and nice to swim in , as she force down the sides of her school blazer -down and kick her legs to free her school skirt at was tangled all round-her-body, at done she had a good look around her to see the fishing rod at was now on the bottom in the mud, so as angelina had taught her how to swim in her school -uniform she kicked her legs to swim down,,down to the at rod at had pulled her down in the first place to see at the fish was still there and quite dead, ho what a shame, as she held onto the rod and the fish and it was up,,up to the fay boat , to be pull up by some of the fay who could not stop laughing at her at her wet site, as joy pull down her wet blazer down and skirt and put her school tie back in her red jumper , as a warm green-cloak was handed to her, and with hair dipping wet, she sat down , and tried to get warm, as a hot tea was then giving to her, as she was still all wet and cold, she was so thank-full of the warmth of the cloak as she spread it over her thighs as she put her back to the wood and began to shake and shiver as she pulled wet hair out of her eyes as she put the cloak-hood over her head.

So it was presenty as she heard all the fay at had run to the front of the big boat, as she looked over the side to see a big lake at had a green -island right in the middle it, what now as she stood-up as she warp the green-cloak about her to have a better look, as she could just see what looked like so kind of building at was tall and green all had tall-trees all-bout it, as all the fay was waving at all the boats at were about in the lake at was by a long -jetty at stretch- out into the waters, as is boat glided by the jetty, as all the fay got out with all the fish, and then they all dance up to is building, ho well as she got out to walk up to follow all the fay up to the big green building, to see the queen of the fay at was sat onto the best looking green throne at she had seen in her life at was so good to see, as the the queen then waved her over to her side.

I gave you good day to you mortal, as you are here now in is place, I have a task for you to do, as one of my fay have lost something at is so precious to me, and as you are still got the ability to swim under-water with-out drowning, at you get from my young angelina, have you not then girl, then you both did at vary wet task for me, as it would be in your vary interest if you wish to go to your home, do you consent to my task then mortal ,as I see at you are still all wet , as I can help with at, do come to me moral, as the girl moved up to the queen, she pulled out a wand out of her robe of gold, here as she point it at the wet girl, as warm air hit j,j as she open-up her wet blazer and spun-about till she was all dry.

I do think you o,,, queen of the fay for the warmth on my uniform, and what is this task at you wont me to do, as I please to help you is day.

Well all at you have to do is go for a swim out in is lake and find my glowing lace-fan is day, as you will have no trouble in finding it, as it as I said, but it will be in some deep-water, as I do not now that is at the bottom at is time, so I give you is ring of light of you to use, and also it will keep you warm then under-water, as one of my fay will snow you the way, but come and sit and have some food and drink before you go onto my task, as I will see if you are as good as angelina, so go,,,.

I thank you o,, queen of the fay, I well, as I do like to swim in my school uniform, as I think at it is so nice to do, as angelina showed how to do it, as the girl put on the ring onto her middle finger, and was then was snowed were to sit by one of the fay, for some nice food, as she then did fell so hungry at she set to, mush to queen mab delight to see the girl eat-up all the food at was set before the girl, after she had finished eaten, the girl was then shone to a nice warm bed, and was told to go to sleep, so with at she just got in still in her uniform to sleep.

PART TWO,, DAY TWO

IT was then the girl woke up , to find at she was in a long -warm green bed, ,,uun,,, hay why am I in bed sill in my school uniform, as she got out to try to pull it down and out with her keel length skirt, as a one of the fay girls walk in with a bole of hot water, please do sit down , as I have been told to help you to wash you hands and face, as you have told to go to see queen mab, as she a task for you to perform for her.

Ho alright as she succeed to put her school tie back into the tie-pin at was just below the v of her school red jumper, as she sat down , as is fay-girl gave a good face-wash and hands , good at will do, so please do come with me to have some at to what you mortals call breakfast as you will need it is day.

So of she followed is girl , she ask the girl what task do I have to do please, ho,,, to find something at had been seized by some things at do live in the lake, my queen will told of it in time, ho,,, good a swim, but not in my uniform I hope, as she was then into a big room at had lots of fay-girls who was all at is time eating, as she was put by one fay girl who then help her to some food, but not to mush she said as you will weighed--down to swim is day, ho yes I do now at , as she pick only the food at she could see at would not weigh her down, as at now done she she then sent down to the lake to do her task for queen mab. As she look down into is dark water, she wonder is she had to take off her shoes, as it would be bitter to swim in, but then she did not now what was under the water, so she thought it would be better to keep them on, as she had only had them on then she had swim with angelina, some time ago, then she made her school tie at was in place in the v of her school jumper tie-pin, so as to not get out, as it did the last time she had to swim, andwith at she walk down into the cold lake-waters till it as up to her face, held up her right hand to see the ring of warmth in the hope at it would work , as she push down her flowing up school skirt down, as she then dive down into the gloomy waters, as she spread out her long arms, and kick her legs hard and let her now heavy wet uniform to pull her down, as she was glad at her black hair was in a hair bob, and not in her face is time, then she had swim to find the lost islands of queen mab with angelina only last mouth, as it was so nice to do as at sea water was so nice and warm to swim in even in her school uniform, as it was so weird to do, but then it was so useful in time to do her live-saving.

Teaching at the school-pool as I did show my swimming tutor only last week, at the end of school day when she full in as I walk in, as she then told me to stay in it, as it was so good to try to swim in it, as I did show her how good I was to swim in my uniform, as I had my spot-clothes in my school bag at the time, and as it was going to be washed anyway, it did not mater to me at the time, which was handy, as angelina also dived in, to help me do some live-saving, also in her school uniform, as she can swim like a fish, as she proofed, as she swim the how length of the pool with out coming up at all, which she did help me a lot, as we partner-up to do some live-saving, as some girls come in to see what was happening, they ask the swimming tutor if they could also jump in uniforms.

A yes at was a great day, as more then ten girls all jump in to help, as we had a good laugh in the changing rooms after we had a good hot shower, as she would like one then she get out of is cold lake-water, as she dive-down legs going like mad, as she had is ring of warmth of queen mab,s, but it was so cold in my face as she got into deep-water with no sun light down here, but then at ring lit-up to show her by it,s light a big dark cave mouth, as she landed on to some rocks to have a good look-in to see if she could find is thing she said at was down here somewhere, as she push of, she had to push down the flowing up blue and grey lined school skirt, as she waved my arms about to move in said cave, as it was then at is ring gave out a blue-light at lit-up the dark cave nicety, for her to see at the cave floor dip-down out of sight.

Right now that, as she push-off to swim down, her arms waving to push some sea-weed at was in the way at was all over the cave mouth, as she looked about to find is thing of queen mab, no not here, as she moved about in the green-weeds use-in- her arms and legs to keep up-right, so she had no choice but to move down into the dark-cave hand-first, arms out in front of her, as it got deeper, but the light of the ring then revealed to her at the walls of is cave had got some what batter, as she swam-down, then to see at it then had levelled out into some big green sea-weeds at had all covered the bottom of is cave, so with at she waved her arms about to thrust her body and lags forewords to land up-right, as she did she had to push down her skirt and blazer at had flowed up about her.

At done she had a good look about, as she held up the ring to find at she was at a bottom of a big cave at was full of dark rocks at was all covered in dark green weeds, but in the middle on a big tall rock was the thing at queen mab said at she was to take to her, as she swam it to it, it then rose up to face her as it fly up to the ring of queen mab, and it landed one to her left hand, HO,,, weird, as only lots of bubbles came out of her mouth, as she then pulled of to have a good look at is thing, to see at it was some kind of wand at was made out of walnut wood, as she then put into her blazers side pocket, as she kick of to get out, as she had to wave her way into the lots of green weeds at bard her way out, at done she thrust her wet arms back to swam up is wide passage up to the cave mouth, and out into open lake-water, and with her eyes stinging to see sun light not to far away.

And with one more good kick of her legs, she got the surface, where cold air hit her wet face at made her shiver with the cold waters at was about her, using her wet hand to push wet hair out of her face she turn about to find at she was in the middle of the lake-waters, ho,,,great was all she could say, but she did see the dock, and is it was easy to swim-- under back water, as she push her arms down to plunge back down, she made her way over to the dock were as she came up, only to see one of the fay girls at was to help her out, Ho good you have get it then, at was will done at girl, as she then put her arms under the girls blazers arm-pits, and with at she pulled the wet girl out, as j,j got up straight all - the cold waters gushed out of her now wet school uniform all over the dock.

At is will done girl, do come with me to get you all dry, as is fay girl held on to her

arm, so with at she led the wet girl over to see the queen of the fay, so to give her the thing at she had to find, AT IS SO GOOD MORTAL, as the queen held the girls hand, as warm wind blow all about the girl , as she was then all dry and warm right down to to her school-shoes , as the girl got down to keel before her, and said I thank you ho queen, SO NOW MORTAL GO TO GET SOME WARM FOOD INTO YOU, AND GET SOME REST, AS YOU HAVE DONE WILL IS DAY, AS ONLY TWO MORE FOR YOU TO GET FOR ME, SO GO.

So it was some time lately, at j,j woke up, In the same room at she had been giving to sleep in, to find at she had on a nice night-dress , at was so nice to ware as it was of fay-work, and she had no idea how at she had got into her bed in the first-place, so it was then at the fay girl at had seen before came into her room with a bole of hot water, and some soap for her wash, as in her other hand she had the dry school uniform for to ware, which she put onto the bed, I with get you some hot food, as with at she told the girl to sat-down so to wash the girls black hair, and do it back up into a pony- tail , and as she wash her body all over, she look about for a warm towel to wipe her self down, at done she pulled of the fay night-dress, and proceed to get into her uniform for the days swim, but is time she left of her tee,shirt off as she find at it was to hard to do any swimming with it on, as it is not nice then you get out of the water in your wet clothes as it will hung down in a wet lump.

So it was some time later a she had to go to see the queen of the fay to find out what the next task was, as she was sent to the top table where the queen was sat, with all her fry girls, come here girl, was you have none for we so well give you is, as she hand over to the girl a small box, it will let you hold more then you can put into it, just think of what you deed and put your hand in, and you will find it, ...ho... I thank-full for is gift my queen, as I will treasure it all-whys so I thank you for it, as it will be most useful at my school, as she then put into her blazers side, as she then bowed low, to the queen, now girl I send you now my next task , to find some green quartz rods, as I so have is small bag to put them in, at is down in a room on the far side of the lake ,so have some good food into you as it may be cold down at the bottom.

So with some hot food in her, she was then told to rest till her food had gone down, so she sat in the sun-light of is fay world, till it was time to get the next item for the queen, as she was put into a small-one-man boat and told to row over to the far side of is lake , till she come to a vary dark water , then dive in, and as it was so warm, she onn-did her school blazer, so at she could row a -bit – better, as she began to row and row, till she got the dark bit of is lake-water, she had a look down over the side, to see something of a big white building just below her small-one-man boat, as she put down the ores, put the small bag into her blazers side, and with one deep-breath she was over the side,, ,,SPLASH,,,.

Head first, arms out wide , as was then at she had find at she had left her blazer open at began to fly about her, but then she had seen angelina swim with her school-blazer sill open-up wide, then both angelina and her had to find the lost land of queen mab, so she made the decision to try it out , but she was going to keep her school tie in her wet jumper no mater what, as with at she thrash her legs to beat her self down to the vast big building to see at it had a flat surface at had a port-hole at was on top of one of the small one,s, as she pushed her arm back to glide down to it , as she put her feet forward to land no top , as her school-blazer flowed about her, and the school skirt flowed up as well, which she had hard a job just to push them all down , to have a good look at the port-hole to see at it had a big hand wheel at was on top, at was all in some kind of green iron, AH HO,,,damm,,, as she try to turn it around without being pushed about by the flow of the

water, at was trying to drag her away, is it was not going to move at-all, as she held on to is wheel with one hand, she had the good-idea to use at box, of queen mad said was to think of what you need most, so as she fished out of her blazers pocket the box, to think of a long crow-bar, as she pop-open the said box, up-side-down, as out full a long iron-bar, which she held on-to, and with a thought of thank you, she put it into the long wheel bar,s and with the help of her school shoes, she pushed it with all her – might to open it, where at last it gave way, ho it must of been not lock at all, she wondered, as she put down the crow-bar, and with to hands she pulled on to it hard, as with a POP it gave way with alls of big bubbles, as she look down the hole, only to see darkness.

Ho I do need some light, as she still had at box by her side, I need a light-stone, as into the box she put her small hand in to find a small white stone, which she pull-out, at did light up, where she then drop it down into the dark hole, to see at it only see down no more then ten feet, as the light-stone hit bottom with a big SPLASH, ,,,what,,, ho can at be, as she put her head into the hole, to see at it was just big- enough for her body to get in, as it was then at she saw a set of ladders at was on the wall,s, but then she now at there was air down in is hole, as her face was not wet, so with at, she back up in cold water there she sat down to put her legs in first, were she had to push down her school - - -skirt as it was apt to fly-up around her, to get it around her legs, so at she get into is round hole, at done as she sat on the edge, with her legs dangling as she pulled her wet school-blazer around, as she then drop over down into is water, with one big ...SPLASH,,,.

And as is water was not at deep, she fund her feet to stand right-up with no bother at all, as with shaking cold water out of her eyes, to see on her right was a set of tall ladders at was set into the wall, by her side, but then she had a way out at led-up to at port-hole, which was good in her mind, now up to her face In water, she held up at light—stone to see not ten feet away from her was was a wall of stone, at had hand-holds at was all the way up, so not even bothering to swim it, she waded-it over to is wall, to have a look, as under-water she could see at the hand-hold was at the bottom as well, so with one shoe in and wet hand on the nearby hand-hold, she pulled her self up. Out of the cold water, which was not at easy, when her saturated heavy school uniform.

And with a water dipping wet skirt it was hard to keep her school shoes in the hand-holds as they did try to slip-out as she tried to get to the top, as she got there, she was so glad to see lots of long green crystals rods at was all scattered about on the top, and as some of them was in easy reach, she rolled three over the side ,,,splash,,,,,splash,,,splash, as three would do, as she tried to reach for one more, her right shoe gave-way, and with a big cry she was in free-fall on her back ,arms out, as she hit the water with one big, ,,,SPLASH,,, as she came back up to spit out some cold water, she was up to her waist, as her school skirt flowed up around her, she hit the water with her wet hands, then push wet hair out of her eyes, to see the three green crystal rods at was laying at her feet.

As she had no way to to get them back up, she pull out at box of queen mab, to think of a big bag of some kind, as she put her small hand in, out came a green tie-up bag, but to get to them she had duck back under-water just to get to them, at done, she began to waded back, as is water get higher she began to swim it over the tall-ladder at she had seen before, with the big over her back she was up the ladders, to push her body out of the port-hole, to swim up to get back into the small-one-man boat, but to her great horror see saw a long blue-black long worm at was then swimming towards her at some speed, WWWEHH,,, was all she could say, as the long worm hit her, and been to warp around her small body, as the worms face rose up to her face, and now in some fear, as

she tried to kick her legs up to try to hit the worm, as the worm cry-out now you stop at now, and gave back what at you have just stole, as she cry stop her kicking, me in some shock as to a talk-in-big-worm, as the surprise was shocking on her face, as she say, how can you talk to me, as it was now the worms turn to look shocked, HOW CAN YOU UNDERSTAND ME THEN GIRL it then cry-out, as it then did lessen the grip around her, TELL ME HOW, CAN YOU DO AT, as the girl wiggle-out of is worm warp, to cry out ,I do not now, you horrid worm , but my good friend angelina, could talk to what she encounter,s and I think it has past over to me.

WILL YOU CAN NOW DROP AT OF THE CRYSTALS ROD,S AT YOU HAVE GOT, THEN I WILL LET YOU GO.

But I have to get them back to queen mab, to day.

WELL YOU CAN NOT, AS IF YOU DO NOT, I WILL SQUEEZE YOU TO DEATH.

Well as you put at way, hear you are, as she drop the bag of crystal rods, there you go, and as the worm dived down to them the girl kick her legs hard to get back-up to the surface, only to find at her small-one-man boat was not to be seen, as only bits of the boat was about her, flowing around her, „HO NO,,, was all she could say, as she sap-out cold lake-water out of her mouth, as she had to kick her cold legs just to stay afloat as she turn about only to see nothing but empty lake-water to be seen, but then she saw something on the horizon , a boat at was on is way to her, ho good, as she began to do the claw to help her to get to it faster, as she was so glad at she had lots of useful help of how to swim her wet uniform school-blazer with her skirt and shoes .As with angelina as we had only did it last week.

With at she got to the boat, but as she put her wet hands onto the sides of is boat, she found at there was no-one in side, „,WHAT,,, was all she could say, as she sap out cold water out of her mouth, as as is boat was still moving on it,s way, it was hard to get her right leg over the side, as she was pulled – a - along by it,s fast passage, but at last she was in, only to find at there was a long wicked looking spear, at had a spike at it,s head, at was glowing, at was sat right in the middle of is boat, and as she looked at it more closely only to see at it had a piece of paper at the end at said, „,TO „,USE,,, ho,,, was all she could mutter, as she then stood up as then all the water in her wet uniform then gushed out all over the boat, at made her to shiver with the could, as she did now at as she was in the water,it was nice and warm then she was in.

So with at she held on the the spear, and jump back in with a big „,SPLASH,,, over the side, which wade the small boat to wobble in the waves, as she plunge down, and only using one hand to helping her to get down to at port-hole, was with the help of the wet school-blazer and skirt she got to it in no time at all, once there she saw it the port-hole had been shut-up, not good was all she had to say, as had to put down the long-spear, so to use both hands just to open it back up, once done, she pick it up, and drop it-in. And then had to gasp her flowing up school skirt around her just to get in, to drop bank down, with one more big „,SPLASH,,, as the water- level was now some what higher then before, as she swim back up, to find at the spear was on the surface, so she held onto at and tried to swim over to the side walls at she had seen before, as she put her shoe in the first step up as she tried to drag her wet self up to the next one, till her head was up to the surface, as now it was pull-grag and try to hold onto the long-spear to get to the top, only to see then she got there at all the green cryslals-rods had been moved out and placed Somewhere at she could not see.

AHH,,, was all she could say, as she then pulled her wet body over the side, and try to stand up, to see if she could find out just where they had all got to, as she padded softly along is flat surface to see some marks all over the place of scrapes at led over to a door, at she had not seen before, and holding up the spear, she pock at is door, which to her most surprise did swing open, and as she looked in, and with the light of the glowing long spear, she saw the green worm at was all encircled by a mound of green rods.

YOU, I TOLD YOU TO GO AWAY, AS THE FAY QUEEN CAN NOT HAVE ONE OF MY GREEN RODS, SO GO AWAY NOW HUMEN GIRL, OR I WILL FEED YOU TO THE FISHS, as with at the green worm then launch it self at her, only to stop at the last bit of the girls face GO,,,NOW, as j,j jump back, she was not what to do now, as she then had I good thought, then can I give you some money of one, as she put her hand into her blazers in side to pull out her school dinner money, at was 40p at was in a small bag.

HO,, NICE SOME SHINETY SHIVER PIECES, AS IT WLL DO NICEY, SO HAVE IS, as it gave her one of the green-rods, NOW GO A WAY.

Right you are, and as she then look down at the spear in her hand , she drop,t down , as she now at it would be some what easiest to swim back up to the boat, but then it would be useful to use it to row-it back to land, so with at she put the green rod into at small bag, and as she had to use both hands, she then shove it down inside her wet blazer in the hope at it would say in, as up with at long spear, as she run back to the water to dive back in, swim over to the ladder, to pull her self up to top, to throw the long spear up, only to see at it rise up to the surface, as she pull her self out of the port-hole, to try to swim back up to the boat, which she did with no difficulty, as she had now got used to swimming in her wet uniform.

At the surface, she held on to at long spear ,, before she bush wet hair out of her eyes, as she doggy-paddled with the spear over to the boat, once there, she pushed at spear into the boat, held-on to the side, one leg up, to heave her wet self in, after to tries she was in, on her back out of breath and feeling so exhausted after her swim, as now out of the water, she began to get cold, so she heave her wet self up to use at spear as a paddled to get some warmth back into her wet arms and body, as of to get the rod back to the queen, and as there was no where to sit in is boat, she had to stand up to paddle back to land, so it was at she then she got to the landing stage, to see all the fay girls at was now all gathered together, at was all waving the arms at her, and as she got to them all, she was then pulled up out of the boat, and into the arms of all the far-girls, how called at you have done it all.

As she was then made to walk all the way to see the queen , to gave her the green rod all dipping wet, till she was stood in front of the queen mab, I DO THAINK YOU HUMEN GIRL FORE ALL AT YOU HAVE DONE IS DAY FORE ALL THE FAY AS AT WAS WILL DONE, SO I WILL NOW DRY YOU OF, AND GAVE YOU A WISH OF YOUR DESIRE, SO DO CHOOSE WISELY GIRL.

HO my queen, I do thank you, as I do choose the way to swim under-water with out air, and not to drown at any depth, so I can then swim with angelina then she or me go to the seaside please, DONE, AS I NOW SEND YOU BACK TO YOUR WORLD AT THE TIME AT YOU HIT AT MAD ROUND-ABOUT AND NOT TO FULL OF SO GOOD BEY TO YOU JOY JAKESON , as it was then she find her self at she was in the middle of the round-about with all the cars at was yelling at her to see at she was all right, yes she said ,with a smile as she walk the rest of way to the school in the rain .

And then as she got into her school, as she put her bike-into the bike-shelter at was at the back of the school, „YOUR LATE,, as she turn-around to see at she her friend, how had her arms across her breasts, how hello angelina I got lost in the would of the fay, and at queen mab, your friend had me to do some things for her, is morning, and I got a bit wet, as then pulled of her wet rain mack, „see,, my uniform is a bit wet , and not off the rain, as I had to swim in my school-blazer and my skirt, as we did only last week.

You saw queen mab, „what,, then is morning, so there did you go, was it back to the islands at we had to swim in to find at lost land of her,s.

„A,, no, it was in a big dark lake, at I had to find some things for her.

And was she happy with you then , as she can be quite nasty to mere mortal,s.

Ho yes, she was, and she then made me able to swim with you, under-water, and not drown, and at is so marvellous, as we can now go and swim together, and is it so good.

Hay,, at is so good , come and get warm, as she held her arm, and both walk in to the warm school.

THE END
